Subject: Grisham Jr. request for meeting with Region 6 EPA regarding Arkwood Superfund Site

Hi Steve,

I would like to request an in-person meeting in Dallas with the R6 Arkwood team, as I have unresolved questions and concerns regarding the site. These concerns include:

- 1) what is the result of the site's reassessment for dioxin risk?
- 2) what is the outcome of the discontinuance of on-site H2O injection "pilot study" and recommendation for the "study" going forward?
- 3) what is the outcome of the new Arkwood conceptual site model creation process?
- 4) what is EPA's status on Institutional Control (aka "Deed Notice" or "Deed Restriction") for Arkwood as approved by EPA's Don Williams and recorded by my father the owner of Arkwood on August 30, 2010 in Boone Co., Arkansas, including any EPA-required modifications and including clarification of the site's actual boundaries and legal description per the new conceptual site model and possible new survey for site
- 5) other topics not listed here

Please let me know when would be a good time for you all.

Thank you.

Charles Curtis "Curt" Grisham, Jr.
